To Whom It May Concern:

This letter is my personal recommendation for Jessica Scaggs. I have had the pleasure of being Jessica's colleague and Assistant Principal for three years to date. I find her to be consistently pleasant, tackling all assignments with dedication and a smile.

Besides being a joy to work with, Jessica has the ability to relate to all of the students in the classroom and deliver effective instruction. She successfully utilizes Smart Board technology to enhance subject matter and to make instruction interactive for the students. She has a great rapport with the students and staff; they all know that she genuinely cares for them. Jessica's work ethic is unparalleled. She is very careful to create effective lesson plans that are driven by the students' needs. She makes use of formative assessment strategies and plans activities that meet students at their level. Her impressive technological and instructional skills are equaled by her empathy, integrity, and patience.

In addition to being an asset to our school, Jessica is also extraordinarily helpful in other areas. She assumed the role of the Technology Committee Chairperson without hesitation. Her proactive, hands-on approach has helped to grow the technological skills of our entire staff. She used her technology skills to create a grade level webpage in order keep parents informed of school happenings and their students' progress. She is always seeking to learn more and she enjoys sharing her skills with others.

I highly recommend Jessica Scaggs to your program. I have no doubt that she will give just as much to this opportunity as she will gain from it.

Sincerely,

Shameka McPherson  
Assistant Principal
